

# GREEN TIP OF THE MONTH

## *Shredded Paper News*

### **Shredded Paper Removed from Mixed Recyclables**

Rhode Island Resource Recovery Corporation (RIRRC) removed shredded paper from mixed recycling programs statewide. Shredded paper will no longer be accepted curbside or at the Rose Hill Regional Transfer Station. RIRRC will continue to accept shredded paper, secured in a bag, at their self-serve Small Vehicle Area at 65 Shun Pike in Johnston.

Before accumulating confidential or sensitive documents, think reduce. When possible go paperless. Also reuse shredded paper in your compost. Shredded paper makes great "brown" material for the compost bin.

If you can't reduce or reuse, look for shredding events in your community!
