The Hunger Games by Suzanne Collins

Click Here to Find in Catalog

The Hunger Games is a fiction dystopian novel advertised towards teens but can be read by all. This story takes place in a fictional land called Panem which is the earth if everything died but one place and if it was run by way of dictatorship. This book is the first book in a series of 3 books and 4 movies. What originally made me interested in this book was because I had heard from friends it was a great story that you never want to put down and because I had watched the movies and figured why not read the books too. This book is featured around the main character Katniss Everdeen who volunteer’s for her sister Primrose Everdeen in a tradition of Panem called the hunger games which is done to show the citizens what they did wrong in the war that killed the earth, you meet many characters along the way in this crazy adventure but the main characters are Katniss Everdeen, Peeta Mellark, Gale Hawthorne, Corialanius Snow, Effie Gray, and Haymitch Abernathy. I do like the main characters, especially Katniss because she just has such a strong personality, and she just makes you wonder what is gonna happen next. This book reminds me of the book series Divergent and The Maze Runner because they are all dystopian novels and are kind of based along the same lines. I think a very adventurous, introverted type of person would like this book, but I also think any type of person could really enjoy this book because it’s not really meant for only one type of person. I loved this book. Suzanne did an amazing job; I would recommend it to others because I really loved it so I think other people would too. I didn’t really like the cover art for this book very much I liked the cover art for the other books in the series better because they were more imaginative the cover art for this book was very subtle because it was a just a mocking jay with a gold ring around it and I feel like the mocking jay component of the book doesn’t really come up till the other two books, so I personally didn’t like the cover art but that's just my opinion. Thank you for reading my book. I hope it influences you to read this 9.5/10 great book.
