PUBLIC WORKSHOP

South Kingstown's

2025 HAZARD MITIGATION PLAN UPDATE

Residents are also invited to attend a ***PUBLIC WORKSHOP*** in the Town Council Chambers

January 9, 2025 (Thursday), from 5:00-6:30pm.

Hazard mitigation are actions taken to help reduce or eliminate long-term risks caused by hazards or disasters, such as hurricanes, flooding, wildfires, and natural disasters

The public workshop will focus on a review of the mitigation planning process, the project team's preliminary risk assessment, and a community discussion about natural hazards and risk in South Kingstown, Rhode Island.

Workshop and survey details will be posted to the project webpage below or scan the code to the right for a direct link to survey:
