Hi Ken,

We've received the Renewal application and it's being reviewed. Our Rules & Regs require us to go out and do a compliance inspection before we approve the Renewal, so the biologist associated with the project will be out there to do their site inspection and write up their report, but it should be turned around quickly.

As for the town, you can tell them that the Renewal was submitted and that it's pending, but for the purposes of their records, we're in receipt of the application and working on the review to extend the expiration date, which would bring the new expiration date through to 2027.

I will keep you updated as I get any new information,  
Rene

P.S. Thank you very much for the gift certificate, I am trying my best to earn it and make sure all goes smoothly/quickly.

---
