

ARTICLE XIV - CONSTRUCTION METHODS AND SPECIFICATIONS

A. Specifications

Construction of streets shall be in accordance with the Typical Cross Section of a street contained herein and the "Standard Specifications for Road and Bridge Construction" current edition, as amended) published by the State of Rhode Island; Department of Public Services, Division of Roads and Bridges unless otherwise noted. Drainage systems shall be constructed in accordance with the "Standard Specification for Miscellaneous Drainage Systems" as adopted by the Town of South Kingstown. Sidewalks shall be constructed in accordance with the "Specifications for the Installation of Concrete Sidewalks and Curbs for the Town of South Kingstown" as adopted by the Town of South Kingstown.

The above technical manuals are adopted as an appendix to these Regulations. A copy of each is available from the Administrative Officer.

B. Soil Erosion and Sediment Control

All soil erosion and sediment control measures required by these Regulations shall be constructed in accordance with the standards and procedures set forth in the Rhode Island Soil Erosion and Sediment Control Handbook, prepared by the U. S. Department of Agriculture Soil Conservation Service, the RI Department of Environmental Management and the RI State Conservation Committee, 1989, and any amendments thereto. Said Handbook is adopted as an Appendix to these Regulations and is available for review from the Administrative Officer.
