Dear Mr. Rabbitt,

I performed a site walk at the above referenced property on November 12th, 2025. No freshwater wetlands or coastal features were observed on the property. In addition, no wetlands or coastal features that may have buffer zones extending onto the property were present on adjacent properties. This determination was supported by digital mapping provided by the RIDEM "Environmental Resources" website that does not show wetlands within or immediately adjacent to the subject property.

Please do not hesitate to contact me if you have any questions concerning the on-site investigation.

Sincerely,
DiPrete Engineering Associates, Inc.
