

Preparedness

We cannot predict when disasters or emergencies will strike, but we can work to make sure that all Rhode Islanders are prepared. Ideally, everyone should be prepared and have emergency resources available in the event of a disaster. Being prepared may sound like an overwhelming task, but it doesn't have to be. Follow three steps to get started: Make a Kit, Make a Plan, and Stay Informed.

<http://www.riema.ri.gov/resources/citizens/prepare/index.php>

- Disaster-Supply Kit
- Evacuation Check List
- Individual Assistance
- Family Emergency Communications Plan
