**Specifications**

Provide a Fiberglass Reinforced Composite (FRC) Anchor Base flagpole Model # **AB 35I** as manufactured by PLP Composites, Fitzwilliam, NH 03447.

The flagpole shall have a mounting height of 35'.

The butt diameter shall be 7" and the top diameter 3". The pole weight shall be approximately 97 lbs. and a total shipping weight of 172 lbs.

The flagpole shall be manufactured of fiberglass woven roving and polyester resin with 75% of the reinforcing fibers oriented in the axial plane for maximum stiffness and 25% in the radial plane for required hoop strength. Load calculations shall be based on AASHTO and NAAMM standards with the pole designed with a two to one (2:1) safety factor for 125 mph winds, unflagged, with a 1.3 gust factor.

The flagpole shall have an Entasis taper and shall be void of vertical mold seams.

The flagpole shall be sanded smooth and coated with a high gloss Aliphatic Polyurea coating system which provides extended UV protection and weatherability.

The flagpole is equipped with a cam cleat, door with security screw, tab, & lock nut at the time of internalizing prior to shipment.

**Standard colors include:** White, Black, Bronze, Faux-Luminum, & Metallic Bronze

The base requires four anchor bolts with covers and two nuts, two flat washers, and one lock washer per anchor bolt as follows: (sold separately)
- 3/4"x24" anchor bolt
- 2-3/4" exposed thread projection recommended

Ritacco Electric hereby submits the below specifications and estimates:

1. Supply & Install PVC piping from existing light pole to flagpole location
2. Supply & Install cooper wiring through PVC piping
3. Supply & Install might post in ground to accommodate light fixture
4. Supply & Install LED light fixture to illuminate flag
5. Make all final electrical Connections & test

WE PROPOSE TO FURNISH LABOR MATERIALS COMPLETE IN ACCORDANCE WITH THE ABOVE SPECIFICATIONS FOR THE SUM OF:

Total for Proposal...............................................................$1,952.74

1/2 due upon acceptance of proposal.......................$976.37
1/2 due upon job completion...............................$976.37

I accept the above proposal by signing below:

– The above prices, specifications and conditions are accepted.
– You are authorized to do the work as specified.
– Payment will be as outlined.

SIGNATURE_________________________________________________________ DATE__________

I understand work will not begin until Ritacco Electric has received my payment for accepting the proposal

This proposal may be withdrawn if not acknowledged within 3 days of date above
Great. Thanks.

Here is the confirmation email from RIDOT if you need it for the Planning Board.

Thank you for contacting us. We have received your request and will respond to it very soon.

We receive many inquiries each day on various issues. All inquiries are important to us whether they are complimentary or critical. We consider all safety–related concerns a priority. Each response requires a different level of research and will be responded to in the order in which they are received.

We appreciate hearing from the public. It keeps us informed on public opinion regarding road construction and other transportation issues. If you don't hear from us in a timely manner, please contact our Customer Service office at 401–222–2450 or dot.customerservice@dot.ri.gov. We are open weekdays from 7:30 a.m. – 4 p.m.

Give Us Your Feedback!

Please let us know why you are contacting us: Looking to find out when the grass and weeds will be cut along 4979 Tower Hill Road, Wakefield, Route 1 South. Also, can some tree work be done, some of the trees planted years ago need some pruning and trim work. I am the facilities manager for the Westerly Community Credit Union. Our building sits along this stretch and we would like it to look a little more inviting. We have installed 2 adopt a spots and would like to
help in getting the front looking better. Can we offer to do some improvements ourselves. Please reach out to me to discuss. 401-447-3256, Jerry Curran, Thanks

Did you find this form helpful?  Yes

How do you get news and information about RIDOT?  Radio

Which media company (e.g. Providence Journal, Channel 10, WPRO, etc.)?  wpro
Good Morning,

We would like to ask that the DOT trim/replace a few dying trees in a special management district in Wakefield along RT 1. The trees are images below. The area is considered part of scenic RT 1 and it could use some attention.

Actual address on Rt 1 – 4959 Tower Hill Road, Wakefield RI 02879

Subject: RT1 Access Road at 4959-4979 Tower Hill Rd

Good Morning,

The Westerly Community Credit Union is currently building an office at 4979 Tower Hill Road in Wakefield. The access to the property is via a spur road with a quick exit off of Route 1. This exit is on a downward hill on Route 1 and quickly rises and requiring fast deceleration on to the narrow access road.

We would like to discuss potential improvements to the access roadway to increase safety and ease of access. Could you please let me know if you are the correct contact? If not, can you please forward this request to the correct person?

Andrew Rogers
Vice President of Operations
