“Welcome to the beautiful Sinclair family. No one is a criminal. No one is an addict. No one is a failure,” (3).

The book *We Were Liars* by E. Lockhart is a psychological young adult thriller that will keep you on the edge of your seat. *We Were Liars* is about a girl named Cadence who is a part of the Sinclair’s. A perfect, wealthy, old money family that spends their summers on their own private island off the coast of Massachusetts. Cadence suffers a traumatic head injury and she can’t remember anything from the past 2 summers except having fun with the “liars”. Cadence falls in love, falls out of love, faces family issues, faces friend issues. But no one will tell her what happened to her no matter what. When her memory starts coming back, she is left with all the clues to put back together.

I liked this book because of the interesting plot. It’s a mystery, but it also involves romance and realistic fiction. At first, I was very hesitant to read this book because of the exotic plot. Although it may seem intimidating, it truly is an interesting book that will keep you turning the pages. I know it definitely had me turning the pages.

If I were to rate this out of 5 stars, I would give it a 4.5. It may be a bit confusing, but as Cadence puts together the clues, you do too. “My name is Cadence Sinclair Eastman. I suffer migraines. I do not suffer fools. I like a twist of meaning. I endure,” (250).
