From a Buick 8 by Stephen King

I originally became interested in reading this book when I was looking for a creepy Stephen King book to read when I found this one.

This book is about a Buick which isn’t really a Buick at all, but a portal to another dimension, and what happens to the police who find it. I thought that it was interesting how there wasn’t a main character, and how the point of view changed to whoever was telling the story at that point. It reminded me of the book The Sun Dog, because both books are about something that looks normal, but is not in any way.

I would recommend this to people who like suspenseful books and anyone who liked The Sun Dog. I think that the cover does a pretty good job of showing what the book is about, but could definitely be better.
